PHYSICIAN ADVISED

Taking Lydia E. Pinkham's Vegetable Compound

Columbus, Ohio.—"I have taken Lydia E. Pinkham's Vegetable Compound during a change of life. My doctor told me it was good, and since taking it I feel so much better that I can do all my work again. I think Lydia E. Pinkham's Vegetable Compound a fine remedy for all women's troubles, and I never forget to tell my friends what it has done for me."

—Mrs. E. HANSON, 304 East Long St., Columbus, Ohio.

Another Woman Helped. Grantville, Vt.—"I was passing through a change of life and suffered from nervousness and other annoying symptoms. Lydia E. Pinkham's Vegetable Compound restored my health and strength, and proved worth mountains of gold to me. For the sake of other suffering women I am willing you should publish my letter."—Mrs. CHARLES BARCLAY, R.F.D., Grantville, Vt.

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

GERMAN REFORMED CHURCH RECEIVES ITS NEW PASTOR

Rev. Herman G. Wiemar was formally installed as pastor of the German Reformed church in Congress St., last evening. Mr. Wiemar is the second pastor of the church, and succeeds the late Rev. Caspar Brunner who was the founder as well as the first pastor. The greater part of the ceremony was in German, the address in English being made by Rev. Henry H. Davenport, pastor of the People's Presbyterian church. A special musical program by the choir was a part of the ceremony. Rev. G. A. Gohhuhn of Brooklyn pronounced the invocation; Rev. Reinhard Koenig read the scriptures and prayed; and Rev. W. F. Barney of Milltown, N. J., Rev. Gohhuhn made the address to the pastor and Rev. Barney gave the charge to the congregation. During the ceremony the eight members of the church consistory went forward and clasped the hand of the new pastor, formally receiving him as their pastor. The special musical program was rendered under the direction of Miss Emma Nothnagle, the church organist.

TROLLEY CARS JAR EACH OTHER BUT PASSENGERS ESCAPE

The crews of two electric cars and the passengers were rudely shaken last evening as the result of a tail-end collision which occurred at Stratford and Seaview avenues. At 7 o'clock a Seaview avenue car swung from Seaview avenue into Stratford avenue on the west bound track just in time to get in the way of a car coming toward the center of the city. The ends of both cars were badly smashed and the greater part of the window glass broken. Herbert D. Sherman, credit man with David Trubee & Co. was a passenger on the Seaview avenue car. A spear shaped piece of glass was hurled toward his head and pierced the crown of his head by hat. A woman passenger who said she was Mrs. McDonald of New Britain was bruised and cut but she had no time to stop to talk about it as she was desirous of catching the 7:20 train. The car from Stratford was filled with passengers and after the crash there was a rush for the rear door. There was hardly anyone in the car whose clothing did not have pieces of glass upon it.

Motorman Frank Ailing and Conductor Clark of the Seaview avenue line were severely shaken. Conductor Brown and Motorman Martin of the Paradise Green car were also somewhat unnerved by their experiences. At the office of the company, three miles away, it was stated that they were all able to be about to-day.

The company is making an inquiry into the cause of the collision.

CIGAR SHOP BLAZE

Fire did damage to the extent of about \$200 to the cigar factory of Jacob Dubb, 164 Seaview avenue, at 6 o'clock yesterday morning. There was a strong odor of kerosene in the building when the firemen reached there and Chief Mooney is investigating.

The auto-chemical crew was called to 7 Center street at 6 o'clock this morning to extinguish a fire in a chimney. CAN YOU BELIEVE YOUR SENSES? When two of them, taste and smell, having been impaired if not utterly destroyed, by nasal catarrh, there really is no doubt that this remedy deserves all that has been said of it by the thousands who have used it. It is applied directly to the effected passages and begins its healing work at once. Why not get it to-day? All druggists or mailed by Ely Bros., 56 Warren street, New York, on receipt of 50 cents.

GAME WARDEN SMITH SETS GOOD EXAMPLE

Call to Sportsmen is to Look After the Quail and Do it Now.

No More Quail Can be Had for Restocking Purposes—How To Provide for Those We Have.

Game Warden Smith of South Norwalk, accompanied by three well known sportsmen, was out yesterday clearing away the snow and placing food for quail. One flock of thirteen quail was found cleaning a scanty breakfast from the weed cover sticks above the snow. It is of the utmost importance that those knowing of flocks of quail find them and place food where the snow is deep as at present and especially when underneath is crust and the bushes and weeds are covered with ice.

From the commissioners' report it is plain that no more quail can be purchased for restocking purposes and we must rely upon what few we have at present. Quail increased last year and every little flock that can be wintered means so many cheery calls of Bob White in the meadows and above the fences next spring—a note dear to sportsmen and all others alike.

No doubt others have placed food during the present storm, but the late season and the unfavorable conditions thus far which have kept the birds in excellent condition, should cause sportsmen everywhere to redouble their efforts during the next month to save every quail possible. On the return home the warden and his party upon what spring illustrates a flock of nine Hungarian partridges, the increase from the birds liberated last spring. Another flock of these birds was seen in another section last week and one gentleman reported a flock estimated at thirty birds on his land. This increase from eight partridges last year is a fine example of the value of giving the new birds a chance and what prolific breeders they are. The commissioners received a large number of quail from the 23rd of December which are being cared for until spring.

The annual meeting of the Connecticut State Verbern, German Alliance, was held in Meriden, yesterday afternoon. Bridgeport was represented among delegates by Frank Leiss, Clemens Kloforn, Charles Gotthardt, Henry Muskwitz, and Eugene Parthenary.

She Drew the Line.

Seeking redress for domestic troubles, a negro woman who resembled nothing so much as she did the "before taking" half of an antifrat remedy appeared at court.

"It's a wronged woman," she blazed in a give-me-back-those-papers voice. "Ah want redress."

"What's the trouble?" Inquired the sympathetic judge.

"It's 'bout mah ole man. He's done been sayin' to me, 'If you don't do nighab gals, an' it's got to be bad till Ah don't see him more'n once a week. Somebodies got 't be done.' The judge's eye held a crafty gleam. "You are seeking a divorce—a legal separation?" he questioned.

"Go 'long, man! Divor'ce nothin'!"

Think I'm gwine 't gin him what he wants and 'low dat man who dispoite all his cussedness is de handsome nighab in Kansas City 't go skyshootin' round 'mong dem gals? No, sah. Ah don't want no divor'ce ner dat legal seppitition yer's talkin' 'bout. What Ah wants is an injunction!"—Kansas City Independent.

Mary Was Spoiled.

A doctor in one of the West Philadelphia children's homes tells the story of a woman who came to him one day in a most perturbed state of mind. She had taken home her daughter of five years the week previous, after a stay of a year in the home, and found she had an elephant on her hands. "Oh, sir," she said to the doctor, "what can I do with Mary? You have made her far too grand for her own home. Why, the first day she was back she refused to be dressed in the morning till she had a bath; then she would eat no breakfast whatever because she wanted fruit and some 'serious food' first, and last of all, she put a saucer of water at her place at the table and she dips her fingers in that every few minutes. Sure, doctor, I don't know what I'll do," and the woman passed out, shaking her head as if the problem was certainly too much for her.—Philadelphia Record.

Enjoy Your Meals.

By Simply Eating A Little Pleasant Tablet After Each of Them.

A TABLET DIGESTS A MEAL

When digestion is perfect the fluids necessary to this process come naturally to the aid of the stomach. They are of right proportion and do their work speedily and well. When digestion and dyspepsia are prevalent, these same juices come slowly if at all, are weak and insufficient or are filled with strong acids and alkalis. When such a condition exists each meal is a hardship upon the digestive organs. The meal should strengthen the juices, but on the contrary it weakens them, so that the man who is very apt of eating causes conditions to arise which of themselves bring him pain and loathing for the next meal.

By eating one of Stuart's Dyspepsia Tablets you mix the tablet with your saliva and it goes into your stomach a strong, vigorous fluid, many times more powerful than the natural digestive juices. These tablets are made up from natural vegetable and fruit essences and are composed from Hydrastis, Golden Seal, Lactose, Nux, Asclepi, Pepsin, Bismuth and Jarialca. There is no harm in taking a grain of it with digest 3,000 grains of food in any stomach. Beside digesting the food it will give the blood the power to enrich the fluids so after a time nature will take care of itself. Though you have no stomach trouble one of these tablets after each meal will do you a world of good. Ask for Stuart's Dyspepsia Tablets, 150 Stuart Bldg., Marshall, Mich.

JAPAN'S POVERTY PRECLUDES ALL THOUGHT OF WAR

Only the Existence of the Empire Could Force Mikado Into Conflict Now

Taxation Resources

Practically Exhausted

Not Another Yen Can Be Raised By Tax and No Loans Can Be Obtained at This Time—Debt Incurred by Russian Conflict is Crushing Life Out of the People—A Horrible Expedient Adopted to Raise Small Revenue—May Be 15 Years Before Empire Will Be Free to Move.

(By H. Lee Clotworthy.)

(Staff Correspondent of the United Press Who Arrived To-day From Tokio.)

San Francisco, Feb. 1.—Japan can fight no nation for fifteen years. There is no more probability of the Mikado making war on the United States than there is of the Sultan of Zulu leading an expedition against Great Britain. The "War Scare" developed from the anti-Japanese bills in the California legislature could only be the result of misinformation. With the appalling debt entailed by the recent Russian war demanding a burden of taxation carried by every industry and every toiler, the Japanese are suffering from financial anæmia. The government is except at the price of risking the existence of the empire. Every military and naval expert in the far east knows that the Russo-Japanese agreement alone prevents Russia from taking advantage of Japan's condition to retrieve her lost prestige in the east.

There is not a single citizen in the empire from the coolie to the capitalist who is not carrying a crushing burden of taxation and they will not bear the addition of another yen. A pitiable though abhorrent example of these desperate straits of the government is found in the heavy taxing of the unfortunate women denizens of the "Yoku-warai," the government licensed resorts, found in cities of any size. The majority of these unfortunate are the widows of Japanese soldiers killed in the Russian war who instead of being pensioned were licensed to lead lives of shame. Nearly every yen obtained by these miserable creatures is mulcted from them by the government which is desperately attempting to maintain a perfect military establishment.

It is the consensus of opinion of those who have studied the financial situation of Japan with the knowledge of the financial markets of the world have refused to make any additional loans, that Japan at present could not conduct a war lasting three months. The most optimistic estimates set the date at which the empire could safely engage in a conflict with a first class power at 15 years from the present time.

The Japanese fleet except for the autumn review, is not engaging in any manoeuvring owing to the exhausted state of the empire. The cost of all ships are lighted with oil lamps. Every official of the empire expects that the expiration of the Anglo-Japanese agreement will be followed by an agreement with the United States which will result in a death-struggle with Russia and the most desperate means will be employed to prepare the nation for that inevitable struggle. It is generally admitted by the higher officials that owing to the bitter opposition of the British Colonies, the English home government will not renew its present agreement with the Asiatic empire. Even the middle classes tacitly admit that a war now would mean a set-back to the empire.

There is no doubt that if Japan was in any save its exhausted state the present would be the most opportune time to engage in a struggle with the United States for the mastery of the Pacific, a struggle which is certain to come. The defenseless condition of the Philippines offers a tempting bait under existing conditions. But the very existence of the empire is the only condition which would force Japan to take recourse to arms at this time.

HANS WAGNER QUILTS BASEBALL

Hans Wagner of the Pirates has joined the "no more baseball for me" class. Honus says that he has not signed a two year contract with the Pittsburgh club as quoted. He claims that he has already signed up with an automobile firm to handle machines, aside from the time he will spend with his own automobile circus, which will take the road with sixteen large auto cars about April 1.

Hans says that he can make more money outside of baseball than he can in it, and that is what he is working for now. "I'm a has-been as far as baseball is concerned. I have set my heart on the circus game, and what time I can spare from that will be devoted to the auto business, for that you are. I have no more time for baseball."

Meriden's Place In Conn. League May Be Given to Northampton

The committee on the revision of the constitution of the Connecticut League met in New Haven this afternoon and decided upon a report that will be made at an annual meeting of the directors which is expected to meet Feb. 9. The proposed changes in the league constitution give the president more authority than he has enjoyed heretofore, making the power of the president plain and his rulings final. Manager O'Rourke of this city drafted the new rules as secretary of the committee, which also comprises James H. Clark of Hartford and A. E. Taylor of Chicopee, vice president of the league.

President Tracy of the league is in favor of taking in Northampton as a Meriden drops out. Goldie Bowler, a former Connecticut league twirler, is said to be interested in the forming of a company of Northampton men to take over the Meriden franchise. From Holyoke and Springfield standpoint the town will help the league, but it is a question whether it would be a financial benefit to the other towns. Northampton has always been a good baseball town, its 25,000 inhabitants generally turning out liberally to most of the games.

CLEARs THE COMPLEXION OVERNIGHT

Pimples, Rash, Eruptions, Etc., Quickly Eradicated by New Skin Remedy.

Since its discovery one year ago, poslam, the new skin remedy, has, in its extraordinary accomplishments, exceeded the most sanguine expectations of the eminent specialist who gave it to the world. It has cured thousands of cases of eczema and eradicated facial and other disfigurements of years' standing. The terrible itching attending eczema is stopped with the first application, giving proof of its curative properties at the very outset.

In less serious skin affections, such as pimples, rash, herpes, blackheads, acne, barber's itch, etc., results show after an intelligent application, only a small quantity being required to effect a cure. Those who use poslam for these minor skin troubles can now avail themselves of the special 50-cent package, recently adopted to meet such needs. Both the 50-cent package and the regular \$2 jar may now be obtained in Bridgeport at Jennie Hamilton's Pharmacy and other leading drug stores.

Samples for experimental purposes may be had free of charge by writing direct to the Emergency Laboratories, 32 West Twenty-fifth Street, New York City.

DENTISTS' ANNUAL MASTICATORY EVENT

Local Tooth Carpenters in Festive Vein—Near Lawyers Advise.

The Bridgeport Dental Society held its fifth annual banquet Saturday night at the Stratford, there being 62 present, many of them from out of town. No delay was experienced in starting the feast, the doctors having their masticators in perfect working condition.

After the cigars were smoked away Dr. Alfred Fones, acting as toastmaster introduced President George E. Hill of the Police Commission, who made a good comparison between his "finest" and the dentists. Dr. M. L. Rein of New York, introduced as the best dentist in the country, spoke on modern ideas of dentistry and dental education. Dr. James E. Powers, of Providence, president of the Northern Eastern Dental Association electrified his hearers with a talk on "Dental Success." He cautioned the dentists that money was not the only thing for them to think about, as a higher calling was for the advancement of their profession, and its honor. Dr. James McManus of Hartford, was introduced as the oldest and best known dentist in the country. Dr. McManus is the father of two sons in dentistry, and congratulated the Bridgeport dentists on having such examples as the late Drs. Strang and Civilian Fones to pattern after.

Judge John C. Pullman, was introduced to the assembly as one of the youngest but brightest lawyers in the city. Judge Pullman said he was used to being jollied and got back by saying that the dentists were very poor pickings for a lawyer. He closed his address by reading an original poem composed about the speakers that had preceded him. The poem was by Dr. E. L. Gaylord, of Springfield, who is a yearly guest with the local dentists at their banquets was well received, and spoke on the "Sightliness of the Northern Eastern Dental Association." Dr. W. O. Beecher of Waterbury was the last speaker of the evening. His theme was on modern methods and equipment. Between the courses of the speeches the company was entertained by songs by the society's glee club. The out of town guests were: Drs. M. L. Rein and George B. Palmer, of New York City; A. J. Flanagan, of Springfield; J. E. Powers, of Providence; E. J. Meriden; James McManus, Charles McManus and Henry McManus, Nelson Goodwin, Alvin Hunt, F. T. Murlless, Jr. and C. H. Riley, of Hartford; E. J. Gaylord, T. R. Bryant, D. W. Johnston, E. L. Richards, and George Fahy of New Haven; F. E. Roy, of Winsted; I. E. Sullivan, of Stamford; E. J. Abbott and W. O. Beecher, of Waterbury.

SEVERE ITCHING HUMOR ON HANDS

Tiny Pustules Spread Up to Elbows—Could Not Sleep and Scratched Until She Bleed—After Seven Months of Futile Treatment, Little Girl was Completely

CURED IN TWO WEEKS BY CUTICURA REMEDIES

"My daughter, twelve years of age, was afflicted with a terrible itching humors on her hands which was so bad at night that she was unable to sleep. She scratched herself until she bled. The trouble began in the shape of small pustules about the size of a pinhead which produced severe itching and then a hard scab formed on top. These always opened up again, bleeding badly. From her fingers it extended over her hands and as far as the elbows. The doctor said it was eczema, and that recovery would necessarily be slow. He prescribed for my daughter for seven months, but the trouble always grew worse. Then I started in to use the Cuticura Remedies. After using Cuticura Soap for five weeks, with Cuticura Ointment and Cuticura Pills, her hands were healed. Mrs. M. Sturges, South Haven, Minn., April 1 and July 7, 1908."
